**Subject:** Microsoft Settlement

To whom it may concern,

The proposed settlement in the case against Microsoft is unacceptable and will only serve to further their control in the marketplace. There are many experts who are more than willing to be consultants in this case who can help achieve a fair but proper settlement. If you have any questions or if I may be allowed to assist in location and talks with said consultants, please let me know. Please do not continue with the current settlement as it is completely lacking in substance that will affect Microsoft's business practices. Thanks for your time.
